PROFESSIONAL SUMMARY

Motivated Full Stack Developer with specialized expertise in PHP, Laravel, and JavaScript ecosystems. Proven track record in architecting custom SaaS platforms, optimizing backend database performance, and delivering responsive, high-fidelity user interfaces. Experienced in freelancing and contract management, delivering scalable web solutions that integrate secure payment gateways and automated workflows.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), PHP, HTML5, CSS3

Frameworks & Libraries: Laravel, Vue.js, TailwindCSS, Bootstrap, jQuery, AOS

Databases: MySQL (Relational Schema Design, Query Optimization)

Tools & Platforms: Git, GitHub, VS Code, PHPMailer, Paystack API

PROFESSIONAL EXPERIENCE

Keep Seats

Full Stack Developer

Contract / Remote

[2025] – Present

- Architected a custom SaaS ticketing platform using pure PHP to minimize dependencies and maximize performance.
- Engineered the backend logic without external frameworks, resulting in a lightweight and fast-loading application.
- Integrated MySQL for robust data persistence and implemented the Paystack API to ensure secure, seamless payment processing.
- Developed automated communication workflows using PHPMailer for OTP verification and transactional emails.
- Designed a responsive, modern frontend interface utilizing Tailwind CSS utility classes.

FujiCommerce

Backend Developer

Personal Venture

[2025] – Present

- Developing the backend architecture for a scalable multi-seller e-commerce platform.
- Building RESTful APIs to manage users, stores, and complex product listings.
- Designing optimized relational database schemas to ensure data integrity and query speed.
- Implementing secure authentication protocols, seller verification, and payment workflows.

Ebievik Global Resources

Web Developer

Contract

[2024]

- Developed a corporate website to establish the brand's digital presence and advertise services.
- Implemented technical SEO strategies to maximize organic search reach and visibility.
- Integrated automated email systems for client inquiries using PHPMailer.
- Utilized Framer Motion and lightweight JavaScript libraries to create engaging, animated user experiences.

PalmPro Enzymes Research Team

Web Developer

Contract

[2025]

- Built a professional, responsive website tailored to the research team's branding requirements.
- Optimized site performance and structure for search engines (SEO) to increase audience engagement.
- Designed a clean, modern interface using Tailwind CSS, ensuring compatibility across all device sizes.
- Implemented AOS (Animate On Scroll) to enhance visual storytelling and user retention.

PROJECTS

Bitbet | HTML, CSS, JavaScript, Vue.js

- Served as **Team Lead**, managing the development lifecycle and coordinating tasks.
- Developed a casino-style browser game featuring dynamic UI states and complex game logic.
- Implemented real-time feedback and smooth state transitions using advanced DOM manipulation.
- Refactored the initial codebase into Vue.js to improve component modularity and scalability.

CERTIFICATIONS

Laravel & PHP Mastery: Build 5 Real-World Projects | *Practical Training*

- Completed hands-on training covering Laravel fundamentals, authentication, database design, APIs, and deployment.
